alone, excluding training charges. The opinion of the committees about the final proposals (involving a cost of Rs 2128 during this year) made in accordance with the Sany Comr's views, has not been taken.

2) The Dy Comr & Chairman of the Hassan Dt committee has made a separate representation in regard to the grant of 3 vaccination scholarships at Rs 8 p. m for his district. As the Sany Comr had not been consulted by him, it has been referred to the Sany comr for opinion. The present proposals made by the Secretary include those made by the D.C. Sir,

1. In submitting herewith copy of resolutions passed by the Malnad Improvement Committees of the Districts of Shimoga, Kadur and Hassan anent increasing facilities for popularising vaccination, I have the honor to state as follows:-

2. All the three committees are unanimously of opinion that the present number of vaccinators employed in the Malnad is insufficient to effectively check the ravages of small pox and they have therefore resolved that 14 additional vaccinators should be appointed one for each of the Malnad Taluks or Sub Taluks included under the Scheme. With a view to attain better results, they have also further resolved that the additional vaccinators to be employed should be made to work under the direct supervision and control of the Amildar or Deputy - Amildar as the case may be.

3. In pursuance of these resolutions, the Sanitary Commissioner was requested in this office No. 200 dated 16-6-1914 (copy enclosed) to inform whether he could supply the required number of vaccinators for employment in the Malnad. From his reply (No. 60 dated 3-7-1914 copy enclosed also) it is learnt that it is extremely difficult to induce the few available trained candidates

candidates to accept temporary service in the Malnad. He suggests that local men may be selected and sent for training for 2 months at the Vaccine Institute at Bangalore allowing them a liberal subsistence allowance and travelling allowances for journeys to and from Bangalore, and to appoint them subsequently on a salary of rupees 12+2(malnad allowance).

4. Including contingent and other unforeseen charges and equipment, the probable cost according to his estimate, for each vaccinator for the complete course is Rupees 40/-. To send 14 candidates to Bangalore for the necessary training commencing from the 1st of September next and to employ them thereafter from the 1st of November the cost will be for the current official year about Rs. 2128 (14×40 + 14×(12+2)×8).

5. I request that you will be so good as to obtain the early sanction of Government to incur this expenditure out of the Malnad Improvement Grant for the current year.

6. On receipt of the sanction applied for, necessary arrangements will be made to select as far as possible the required number of candidates locally from the Malnad and in cases where this cannot be done, men who are willing to undergo the necessary training at Bangalore and agree to bind themselves to serve in the Malnad for a period of 5 years will be chosen on a scholarship of Rupees 10/ a month.

I have the honor to be,

Sir,

Your most obedient servant,

Secretary,

to the Malnad Improvement Committees.

(15) That the Sanitary Commissioner be requested to appoint one additional vaccinator for each of the Taluks dealt with under the Government Order, and all vaccinators in the area should work under the orders of the respective Amildars as suggested in Mr. Matthan's report.

(16) That a bonus of one rupee be paid to each vaccinator for every 25 persons vaccinated by him in excess of one hundred in each month and that each vaccinator be provided with the necessary equipment at a cost of about Rs 10/- the additional cost involved thereby being met from the funds at the disposal of the Committee.

Resolution No.9 passed by the Malnad Improvement Committee Hassan District, on the 10th May 1914.

(IX) Resolved that owing to the present dearth of trained vaccinators three scholarships at Rs 8/ per mensem each be granted out of the funds placed at the disposal of this Committee for sending three Malnad men to Bangalore to undergo the training course for a period of two months, provided they agree to serve in the Malnad portions of this District for atleast a period of 5 years from the date of their appointment.

Ex. 2. 4

Letter No. 200 dated 16th June 1914 from the Secretary to the Malnad Improvement Committee, Kadur District, to the Sanitary Commissioner, with the Government of Mysore, Bangalore.

I have the honor to state that it was resolved at the first meeting of the Malnad Improvement Committee Kadur District, held on the 7th of April 1914 that "a special vaccinator on an increased and progressive pay be attached to each Amildar to accompany him in his tour and work under his supervision and orders."

As there are 4 Taluks viz Chikmagalur, Mudigere, Koppa, Tarikere Taluks and Yedahalli Sub-Taluk coming within the operations of the Malnad Improvement Scheme in the Kadur District, 5 additional vaccinators are required one to be attached to each of the amildars of the above Taluks and Sub-taluk, I request to be informed whether the required number of eligible men is available for employment from the 1st of July next and if so what salary you propose to start them with, and what the probable cost would be for a year consequent on these appointments.

As previous sanction of Government has to be obtained prior to the entertainment of these hands, I request the favor an early reply.

Enc. 3. 5

Letter No 60 dated 3rd July 1914 from the Sanitary Commissioner with the Government of Mysore to the Secretary, to the Malnad Improvement Committee, Kadur District.

Sir,

In reply to your letter No.200 dated the 16th June 1914, I have the honor to state that it is found extremely difficult to induce the few available candidates trained in vaccination to accept temporary service in the malnad. I would therefore suggest that literate men who are willing to take up service as vaccinators in the malnad taluks be selected locally and sent to the Vaccine Institute at Bangalore for training in the technique of vaccination for a period of two months. The candidates will of course have to be given a subsistence allowance, which should be rather liberal considering the costliness of living everywhere in general and at Bangalore in particular. The men may after qualifying themselves be started on pay of Rupees 12/-with a malnad allowance of Rs 2/- per mensem. Travelling allowance to and from Bangalore may be allowed back In the probable estimated cost for one year should also be included the contingent and other unforeseen charges which may be fixed lumpsum at Rs.200/-for all the 5 vaccinators proposed to be entertained.

x. 'Estimated cost' or 'charges'?

2. It may perhaps be necessary to have covenants executed by the candidates binding them down to serve the Malnad Improvement Committee for five years (or for such period as the Committee may fix), failing which they will be liable to return the whole of the amount spent on their training with an additional sum of rupees. 50/- as penalty.

Sir,

With reference to your letter No. 11 dated 20th July 1914 in the matter of getting 12 candidates trained in vaccination for employment as additional Vaccinators in the Malnad, I am directed to observe that, in your letter, the cost of training is calculated at Rs 40

S i r,

Referring to your No. 1511/Sany 24-14 dated 7th August 1914, I have the honor to state that the discrepancy noticed therein was due to the fact that in calculating the cost for the entire course for each Vaccinator, the contingent and other unforseen charges were computed only for the 2 months covered by the period of training and not for the whole year.

As however contingent, equipment and other unforseen charges are to be included, at Rs 40/- per each pupil and as he is also to be paid a scholarship of Rs 10/- a month and travelling expenses to and from Bangalore ~~which~~ on an average at Rs 20/- an individual at Rs 10/- for each trip either way, the estimate is revised so as to include this and is submitted for kind early sanction. Including this amount of Rs 40/- per pupil the estimate comes to Rs 2688 or rougnly Rs 2700 as detailed in the accompanying statement. As the training and employment of additional Vaccinators is very necessary in the Malnad area, it is requested that Government may be pleased to sanction a lumo sum grant of Rs 2700/- out of the Malnad Improvement Funds debitable to Shimoga, Kadur and Hassan District grant in the proportion of 6:5:3.

I have the honor to be.
